

Wellcare for Women Group Health Benefits Program

An essential
benefit addition
to a family—friendly
employer brand

**Wellcare
for Women**

Expand your supportive workplace bona fides in a competitive talent marketplace

Wellcare for Women's Group Health Benefits Program

delivers expert breastfeeding and early motherhood product support to employees and eligible dependents.

Backed by skilled telephone support, our portal ensures that a new mother has access to the most appropriate health products and ordering guidance to ease anxiety and smooth her return to work.

Employer Friendly

- Smooths your employee's return to work from maternity leave
- Budget neutral voluntary group benefit – no cost to the employer or the employee for membership in the Wellcare for Women program

Family Friendly

- Lower out-of-pocket costs with insurance covered items and discounted cost for items exceeding the defined benefit coverage
- HSA/FSA qualified

Working Mother Friendly

- The right breastfeeding products and ordering guidance exactly at the time a new mother most needs support
- The relief of having insurance verification and paperwork handled by qualified SunMED staff

Think of us as a maternity resource concierge

Product Categories

- Breastfeeding equipment – including top brands: Ameda, Ardo, Medela, and Spectra
- Nursing accessories
- In-home infant diagnostics (including Owlet)
- Support garments

Wellcare for Women's Group Health Benefits Program provides new mothers with a customized online shopping and help desk experience to give them the personalized health product support to make the best health decisions and to make maximum use of their benefits.

Employer Branded Dedicated Portal

Co-branded to your company, the Wellcare for Women program provides a one-stop website for insurance covered health products and HSA/FSA qualified out of pocket resources.

Personal New Mother Support

Your employees and covered dependents access on-demand help desk professionals that know the available coverage and inform participants about what is covered and to what degree. Our Wellcare for Women team will walk your employee or dependent through the claim process and handle all paperwork.

We will go above and beyond to guide new mothers to select the right breastfeeding and early motherhood products for them, provide expert guidance to order and advise on ease of use, assembly and transport.

The Wellcare for Women team also offers participants upgrades to your existing benefit coverage at a discounted price to give mothers the ability to choose precisely the right equipment at a cost they can afford.

Wellcare for Women turns what is often a bumpy and uncertain process for new mothers into a smooth and supported experience.

What you gain

Wellcare for Women will make your benefits more relevant to the talent you need to attract.

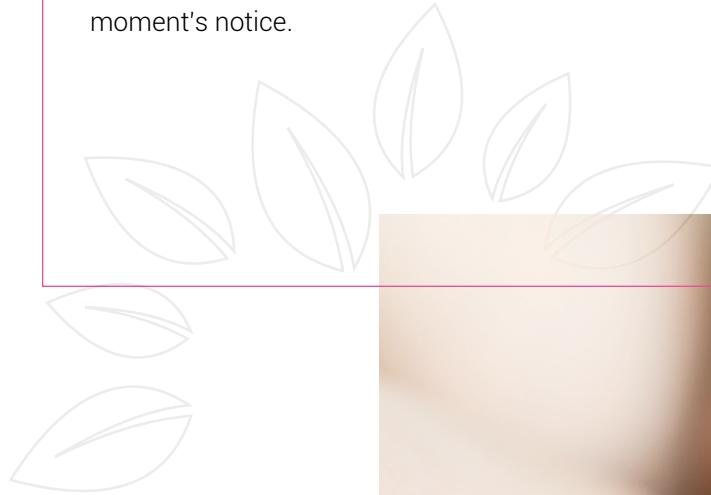

Whether your goal is to attract top talent or to retain key employees, maternity-related benefits are a crucial value-added tool.

The Wellcare for Women Group Health Benefits Program substantially expands your maternity support services at no cost to you or your employees for participation.

An advocate and ally to support your employees

SunMed Medical Solutions is a national provider of Specialty Medical Equipment with a large book of business and strong relationships with maternity DME suppliers. We have the expertise and the contacts to provide expedited service to your employees and covered dependents.

We are experts in group health insurance claims and committed to personal, proactive support with an extensive customer support team ready to help your employees at a moment's notice.

“ 70% of mothers with children under 18 participate in the labor force, with over 75% employed full-time. ”

Implementation couldn't be easier

Your Wellcare for Women program value begins with a custom e-commerce portal, cobranded to your company.

All transactions are secure and HIPAA compliant (both PHI and payment information).

We will provide ready to distribute electronic communications for educating employees on this new valuable service. We also will provide text and graphics that you may need for inclusion in your internal benefits communications.

SunMED will assume the responsibility for insurance verification and claim paperwork under this program. We will provide utilization statistics on a regular basis – collaboration is what we do.

SunMED Medical Solutions is a national provider of Specialty Medical Equipment and enhanced clinical support for the treatment of patients of all ages and conditions, through every stage of their care at home.

SunMED was established in 2002 to provide medical devices and products to patients at home. We have been a Medicare provider since 2002, hold over 200 insurance company contracts, multiple workers compensation contracts and is a Medicaid provider in 20 states.

Our Wellcare for Women Group Health Benefits Program focuses on maternity and newborn products, including support and compression garments, breast pumps and accessories.

We also provide aftermarket support for breast cancer surgeries and management of lymphedema (also available at no cost to employers).

SunMED strives to provide the most clinically superior brands and sought-after models of each product we carry.
